Haines, a member of the legislature by the minority party, has been detained in his efforts to make a personal canvass of the county. He hopes to be able to see his numerous friends in this vicinity some time next week.

Farmers often deceive themselves by thinking they cannot afford to buy a horse blanket. When they buy a blanket in cold weather, if they keep in good condition, they must eat more to keep warm than a horse blanket would cost. When spring comes a horse that has been blanketed all winter is usually worth \$50 to \$100 more than one which has not been blanketed. It is money in the farmer's pocket to blanket his horses. The 5-A horse blanket manufacturers, whose attractive advertisements are appearing in our paper, are filling a long-felt want among farmers by making strong horse blanket cloth, for work blankets which will not wear can be made to look as well as strong ones. This firm is well known in using printer's ink to tell the farmer how they can buy good blankets, and in selecting the columns of this paper which has a large circulation throughout the county.

Of the many inventions of this century, perhaps there is none that aids the business man more, or opens a larger field of labor for young people than Short-hand and Type-writing. The work is light, hours short, and pay ample. Of the many institutions for instructing in these branches, the largest known is the Metropolitan Business College, 79 Madison Street, Chicago. The system taught is modern, instruction individual, term short, and the great advantage in attending this institution is evident from the fact that several hundred students are annually placed in paying positions.

Why let the baby suffer and perhaps die, when a bottle of Dr. Bull's Baby Syrup will at once relieve it and effect a cure. Only 25 cents.

Wonder what is the matter with "Uncle Sam's" mail messenger? Last

week the package of the News addressed to Hickory, Ill., was returned to this office after a lapse of several days with the intelligence that there was no such office in the State.

The Woodstock Democrat's alleged correspondent says there are two Haines men in that township, but fails to say anything about there being any Flavin men there, and the natural inference is that there are none; just like all other Lake County, Johnnie, two to none.

Robert Selter, of Grass Lake, Ill., made out office a call Monday. He reports hunting on Grass Lake quite all at present, and the lake resorts with few guests. Mr. Selter left us a pleasant reminder by way of a token to the subscription, also the cash for a year's subscription to one of his Dakota friends.

Miss Adelle Schaefer has just returned from the city with a large line of the latest styles of winter millinery, which she will sell at prices to suit all buyers, has on hand a large line of the latest Fall styles, which she will close out at a sacrifice in order to make room for Winter goods. Call and see her at C. O. Foltz's store.

We need a little money to pay our honest debts, and keep even with the necessary running expenses of the office, and our subscribers who are in arrears would confer a favor upon us by paying their subscription accounts long since due. We dislike to dun, and hate to be dunned, but at times we must resort to the former, in order to avert the latter.

Our office is indebted to Mr. Robert Selter, of Grass Lake, for a fine photograph of Messrs. Mike and Will Burke's threshing machine, taken with the aid of a number of visitors the first day of starting on the exhibition at our office and is a very fine out-door picture. Mr. Selter makes a specialty of out-door photographing of farm buildings, stock, etc., and does excellent work in this line.

An overgrown onion and a mammoth cabbage, the former weighing one pound, and the latter, stripped of the outer leaves and minus the stalk, weighed eleven pounds. The vegetables were raised in Mr. S. F. Grice's garden and found their way to our office Tuesday, but we never saw an onion and our wife (?) don't know how to cook cabbage, we are like the boy that drew the white elephant, don't know what to do with them, unless keep them on exhibition until the owner calls.

We regret to learn that Mr. C. Hermann, a well known and highly respected resident of this township, died very suddenly at his home in Grass Lake, Monday evening. Mr. Hermann had been suffering for some time past with a swelling on his throat, but did not anticipate any serious result therefrom, and was busy working in the field until a couple of days before his death. Monday medical aid was summoned, but the swelling had so far advanced that no relief could be given and Monday night he died, aged about 55 years. We extend sympathy to the bereaved ones.

We recently took a look at the new residence erected by J. L. Harden in this village, and find it very conveniently arranged throughout; on the lower floor there is a large parlor, sitting room, dining room, bed room, pantry, kitchen and wood shed, while on the upper floor there are four large sleeping apartments, with closets for each; there is also a large rear porch, and a very convenient horse and carriage barn with room for four horses and a loft overhead that will hold about four tons of hay with a bin for grain. Among the more pleasant residences built in this village during the past season, that of Mr. Harden's will compare favorably with the best of them. The John Kelly gang of carpenters did the work, and it goes without saying it is well done.

These gentlemen are also taking care of the interests of ex-Speaker Haines, and will see that he gets a full vote in this city.

Our old friend P. K. Allen, of the Railway Mail service, has received notification of his promotion on the line, and a handsome increase of salary. Ever since his first appointment, Mr. Allen has been doing the best of his service, but instead of a dismissal he gets an honorable advancement.

Joe A. Sweeney, postmaster at Harvard, was in town over Sunday, the guest of Postmaster Morn and Hon. E. M. Haines. Mr. Sweeney came over, as he said, to formally and personally thank Mr. Haines for securing him the appointment as postmaster at Harvard in the face of the opposition of grist mill Bishop and telegraphist Dennison. Mr. Haines went to Washington, in his interest, had a personal interview with President Cleveland, and so impressed the executive that Mr. Sweeney was at once given this commission. In speaking of Mr. Sweeney said, "This shows who is the friend of the administration in this district, and I tell you the friends of Mr. Haines will not forget him, and neither will my friends."

Saturday evening there was a pleasant social gathering at the residence of Eberhart Berk in honor of his 30 years service in the employ of the Denley Bros. It was tendered by Mr. Berk's friends.

"The Zealy" Family, consisting of Wm. Bealey, V. B. Bealey, Ed. D. Bealey, and John Bealey, who are the managers of the best "Ale Brewing Co." in the country. As a token of esteem, Wm. Bealey and wife presented Mr. Haines with a fine watch and chain, with an easy clasp. After a few hours spent in recounting the changes

GRAY'S LAKE.

O. P. Barron arrived O. K., Wednesday.

The fire in C. Whithead's is still burning.

H. Rogers took his regular trip, Wednesday.

Judge Phelps is still on deck and is doing well.

Our station agent is lonesome since Fred got hurt.

Miss O'Donnell is visiting in Chicago this week.

Mrs. Frank Fisher has been sick for a few days but is improving.

Harley Hendee moved Gus Gedke's family to Rockefeller Wednesday.

A. Buell and Allen have finished a dandy job of painting for George Drue.

We are glad to welcome the Rev. Mr. Griffith back to the Gages Lake, M. E. Church.

Fred Wilbur is now figuring on a bill of lumber for a house to be built here in the near future.

Mr. Van Horn preached at the M. E. Church last Sunday, and had a large attendance as usual.

The R. R. foreman has been burning the grass on the R. R. grounds, and we now feel safe from fire.

Robert Ely went to Wisconsin last week, hunting, and has sent to Fred Wilbur a fine specimen of a deer head.

O. J. Dally & Co., bought the nails from the Toll Bros. wreck and now have a full assortment which they will sell cheap; give them a call.

The business done at this station by the Railroad Company for the last two weeks was larger than has ever been done before in the same time.

Miss Partridge has returned from Eagle, Wis., and is now attending to the school in good shape. Her father, who has been sick, is improving.

Miss Mamie Donnelly, of Spring Hill, has some very fine paintings now at the post office, and will give lessons to all who wish to receive them.

A. Church went to McHenry, Sunday, from this place; he lives in Chicago, but had to come here, as they run no Sunday trains on the C. N. & C. I. R.

The Hainesville Boys visited this place Tuesday night, and left their mark by leaving the Junk man's wagon at the depot. Such mischief ought to be stopped.

We are very sorry to say that Richard Hoot is still very sick. Dr. Knowles was called from Chicago to consult with Dr. Rieky on Monday, and at this time Mr. H. is about the same. We are all in hopes he may get well in the near future.

Albert Riel has settled with the Insurance Companies, and the Lockford was the last of the matter. So go and sold the ruins to the junk dealers, and there has been quite lively work going on the past few days cleaning up. Mr. R. went to Burlington Tuesday.

The Register Board has completed their work and let all turn out and vote, as we have a very important issue, and it is in the hands of the people to send men who will represent them and the interests. So go and vote for E. M. Haines, one of the ablest men in the State of Illinois.

Politics are dead here. A few Republicans are going to vote the Democratic ticket, and most of the Republicans on the other side, among this time not have much to say. Everybody has got to thinking for themselves, and all have concluded that the party that will take off the expense of the necessities of life instead of the luxuries, is the proper party to support.

Two of our best citizens went to Waukegan last week to regulate the price of flour, and after visiting Task McCab's, started home about 6 o'clock, and after driving about two hours one says to the other, "Hello, you look some one low far it is to Gray's Lake, and I have known you know us," and Helick says, "Master, how far is it to Gray's Lake?" and Fayet Hueson informed them about 7 miles. We wish to state they arrived home all safe in due time, and flour is selling at the same price as usual.

Rumor says that A. J. Dennison has been furnished money by the Central Committee, to hire halls and serve tickets for special and reserved seats for the prominent Republicans of Waukegan. If Mr. Dennison is a Democrat and is working for the Democratic party, why does he not let the editor of this paper know that he is going to hold some of his meetings, so we can let the public know something about it. We have been a Democrat for years and will do all we can to help the party, but would like first to know whether Mr. Dennison is a Democrat or a Republican, as we are very radical ourselves in regard to politics.

WHO IS HE? WHAT IS HE? WHERE IS HE?

Mr. Richard Bishop Will Please Come Forward and Answer.

A letter to the McHenry Plaindealer, dated at Waukegan, reads as follows:

Editor PLAINDEALER:—Will you be kind enough to insert in the columns of your valuable paper two or three questions submitted, for the purpose of enlightening the Irish Democrats of the 8th Senatorial District relative to D. H. Flavin, of your county, who appears to be up for legislative honors on the tarantula ticket.

In a recent issue of a sheet printed in your county, and run in the interest of the above named would-be candidate, we learn that his biography appeared, giving him a very elaborate send off, stating his qualifications as a law-maker, an orator, in short a person fully qualified and deserving of any favors within the gifts of the voters of the District, and among other things, that he being an Irishman he was thereby entitled to the full vote of that nationality. Now what the Irish Democrats of this District would like to be informed about is this: Is the D. H. Flavin, who four years ago, while attending a political meeting, held on the Fair Grounds, in Woodstock, grossly insulted the late General John A. Logan, while he was addressing his constituents upon the issues of the campaign? Is he the D. H. Flavin who later on in the same campaign hurled missiles into a Republican procession? Is he the D. H. Flavin who two years ago attended a political meeting in the town of Hartland (united), and by his language and actions proved himself capable of performing acts of meanness and degradation that would make the leaders of the slums of New York or the toughs of Heidelberg turn green with envy? Is he the same D. H. Flavin whose biography appeared so recently in the Woodstock Echo, the person who wrote it certainly must have an elastic conscience, or to say the least a very meager idea of what constitutes true manhood. His being an Irishman certainly can not in any figure with the majority of the Irish Democrats, as they do not wish to be instrumental in elevating any man to a position of honor and trust, let his nationality or religious faith be what it may, if his conduct are such as to keeping with what constitutes a gentleman and a law abiding citizen.

There was a big Republican rally here last night, which was attended by nearly everybody in the district. The speakers were Hon. Chas. Fuller, Hon. C. W. Whitney and Hon. C. T. Hydecker.

People are beginning to realize the character of one Flavin, who was here a week ago pretending to be a candidate for some office. There was a feeling here that Flavin was deluded but innocent. It is now seen that the master of the whole thing is in such a remote place that it is believed the rally will be a weak effort. This, the Democrats say, is some of Dennison's work.

THE SAVAGE WAY.

How the Indian Treats an Injury—Old Time Methods.

The savage is emphatically the child of nature. He lives close to nature, his only education is gained in nature's school.

When the Indian receives an injury, he does not seek a cure in mineral poisons, but binds on the simple leaf, administers the herbal tea, and, with nature's aid, comes natural recovery.

His remedies are simple, but the wilderness, built their uncouth but comfortable Log Cabins and started the clearings in the woods, fertile fields of the modern farmer.

And here that lay close at hand nature's potent remedies for all their common ailments. It was only in very serious cases they sent for old "saddle bags" with his physic, which quite as often failed as cured.

Later day society has wandered too far away from nature. In every way, for its own good. Our grandfathers, purer, better, healthier, more natural lives than we do. Their minds were not filled with noxious fumes, nor their bodies saturated with poisonous drugs.

It is not time to make a return to the simple vegetable preparations of our grandmothers, which contained the power and potency of nature as remedial agents, and in all the ordinary ailments were efficacious, at least harmless.

The proprietors of Warner's Log Cabin remedies have thought so, and have put on the market a number of these pure vegetable preparations, made from formulas secured from the old-time Indian.

Among these Log Cabin remedies will be found "Log Cabin Sarsaparilla," for the blood; "Log Cabin balm and balm," a tonic and stomach remedy; "Log Cabin cough and consumption remedy"; "Log Cabin hair tonic" for strengthening the hair; "Log Cabin eye remedy," for both external and internal application; "Log Cabin liver pills"; "Log Cabin sore cream," an old but effective remedy for catarrh, and "Log Cabin plaster." All these remedies are carefully prepared from recipes which were found after long investigation, to have been those most successfully used by our grandmothers.

They are old-time, simple, vegetable, efficacious remedies of Log Cabin days.
